Strathmore Alberta

Local Jottings

Box Social at Hervey School, half proceeds to go to Strathmore Hospital, balance for school supplies on Monday, March 17th. **5-3-1**

Tomorrow (Thursday) Mr. A. Layzell is selling off the stock and effects of Mrs. Fox, widow of the late R. L. Fox, three miles East and six miles North of Strathmore. Details of sale will be found in our ad. columns.

Miss C. May Boisvenue has just returned from Seattle for a prolonged stay with her parents.

There were indications of a Chinook on Monday, but it failed to materialise, though the weather has been more pleasant than at the time of writing [Iues lay] than it had been for some considerable time.

Mr. J. Chisholm, who has been employed in Mr. W. E. Brown's hardware store on the past eighteen months left on Tuesday to take up his appointment as manager of Purcell's hardware store at Brooks.

An enjoyable evening was spent in the dining room of the King Edward Hotel on Saturday evening by Mrs. Hirtle, who has been employed as waitress for a considerable time past, was given a surprise party on the occasion of her leaving to rejoin her husband in Calgary. There were a large number of guests and much was provided by Hirtle's orchestra.

One of our most ingenious minds, Mr. Ben Fessenden, has evolved a new scheme for the protection against the gas warfare. Briefly, it is an adaptation of the poison gas warfare as first practised by the Germans. The modus operandi is as follows—the party will first carefully cover their faces with a cloth which disappears down it, the chief operator will insert the nozzle of a hose after it. The second operator, who will be bringing along the gas tank, will then turn on a small supply of gas, and then "napoo him" Mr. Gopher. The scheme offers great possibilities, though we may expect a protest from the secretary of the American Society of Engineers, if it is breached at the Hague Convention and against the rules of civilised warfare.

All ladies having finished Red Cross work are requested to kindly leave same at Red Cross office or Lambert's Drug Store before Saturday afternoon, as the box is being packed for shipment on that date.

Pte. Hayward, a returned veteran of the 31st Battalion, was in town last week visiting his sister, Mrs. Richards.

Another returned soldier to arrive in this district last week was Sgt. Bucknell, who went overseas with the 21st Battalion.

He is going to be employed with Mr. W. L. Gilbert, drichider, near Carseland.

Make the STANDARD your shopping medium and read the ads. carefully. You will find many articles that will repay you for your trouble. We propose to increase the size of the STANDARD considerably before the end of this month, and our aim is to make it a paper that will be a real public utility to the whole of the community. This district is unique along the interests of the farming population, as well as that of the town.

Big Dance in Opera House Friday, March 7, 8.30 to 12.30. Hirtle's Orchestra. Admission, Gents 75c, Ladies 25c. Every welcome. **5-3-1**

Mr. Wm. Goffier, of Ruidyard, Montana, left Strathmore on Monday after a visit of about a week's duration spent with Mrs. A. Fred Johnson and Mrs. Platt. Mrs. Goffier is well known here, having come here several times. Mr. Goffier having owned a farm north of the town and also an implement business in town.

The departure of two young local people from Calgari one day last week, accompanied by the young lady, gave rise to a widespread rumor that they had gone up to be married, but we are informed on the very best authority that the rumor was unfounded, though it may be an intelligent anticipation.

Mr. A. Layzell is selling off Monday, March 17th, the stock, effects, etc., of Mr. Frank Schutz, south of Chadron. This sale had been postponed on account of the weather, but will come off this time, irrespective of weather conditions.

Mr. and Mrs. Chas. Rattray came from Chancellor on Friday, a day on a visit, and are still in town, staying with their old time residents, and are busy reacquainting themselves.

Friday, March 13th, is the date of a dance to be given by the newly-formed branch of the Great War Veterans' League. Keep the date in mind and contribute a bit towards giving the boys a good start off with their new local colony near Chancellor.

Friday, March 13th, is the date of a dance to be given by the newly-formed branch of the Great War Veterans' League. Keep the date in mind and contribute a bit towards giving the boys a good start off with their new local colony near Chancellor.

Mr. Ben Fessenden left on Thursday on a holiday to B.C.

Mr. W. H. King, of Irma,

was in town on Thursday for the purpose of purchasing some cattle from the C.P.R. Animal Husbandry Department.

Some time ago a meeting of the Board of Trade was held and one of the things that were decided on was that there was to be an Agricultural Fair this year. A committee was appointed and arrangements were made for the list of Agricultural Fairs for the Province has been published, and Strathmore is not on it. There is no earthly reason why Strathmore should not have an Agricultural Fair this year. The district has the grain and stock it produces, should not have one of the best fairs in the Province and we hope this note will give the committee appointed to do a fair amount of work to secure us a fair this year.

Mr. Boisvenue, secretary of the Strathmore U.F.A., received yesterday an urgent message from Mr. H. W. Wood, President of the U.F.A., stating that an upward revision of the U.F.A. tariff was to be pressed forward at Ottawa, and to take measures to counteract it. Mr. Boisvenue got into touch with the local U.F.A. executive, and on Monday evening he, together with Mr. Thomas White, and one to Major Redman, member for East Calgary, protested against the proposed revision, and stating that any tariff changes must be based on the principles approved by the Farmers platform of the Canadian Council of Agriculture.

Municipal Elections

HAIL BYLAW CARRIED
The annual elections for the Municipal District of Bow Valley took place on Thursday of last week. The turnout was very bad, and the results almost impossible, but despite this the vote was exceptionally good, considering the circumstances.

For the third seats vacant on the Council Board the results were as follows:

Hans Lousen, Carseland, 100

C. F. Baker, Carseland, 99

E. Skeat, Chestermere, 98

The elected candidate was Mr. J. W. Payne, Cheddele, with 45 votes.

The Hail Inn election was carried with a large majority, the vote being 95, and only 10 against, but the bylaw that the restraint of cattle was defeated, the vote being 79, to 27 against. This bylaw, however, received the support of two-thirds of the resident electors, which was practically impossible under the road conditions.

The first meeting of the new Council will be held on Tuesday.

KEOMA ELECTIONS

On inquiry over the phone yesterday we found that the election returns for Keoma constituency were not yet complete, the Nightingale voters having yet to come in, but the results to date are as follows—

Chamberlain, 37

Ewing, 37

Tellier, 32

Kindopp, 32

The Hail and Hord Bylaws have both got good majorities, as the present returns show.

We have been unable to secure the returns from Grossfield Municipality yet, but hope to publish the full returns in our next issue.

Successful Social and Supper

A very enjoyable evening was spent last Friday in the Methodist Church building, when the ladies of the church held their annual dinner and concert.

The dinner was held in the basement from 6 to 8 o'clock, and a big number assembled to do justice to the sumptuous repast that the ladies had prepared.

A special feature of the meal was the entertainment given by returning soldiers and for clubmen.

The question of holding a dance was taken up, and it was agreed unanimously to hold a dance on March 14.

Those present were: M. G. Knyvet, Geo. Auld, John Mackenzie, Sam Buckley, W. B. Morgan, H. White and J. Vank. The latter was elected chairman of the executive.

An executive committee was appointed to look after the organization of the branch.

ADDRESS BY CAPT. ANDERSON

The main feature of the evening was, however, an address by Capt. Rev. F. W. Anderson, of the Canadian Chaplains Service, and address him as the title "Our Acting Service Chaplain".

Mr. B. H. O. Lodmell, also recitations by Mr. Reynolds, and a cornet solo by Mr. Wm. Saunders. These were all most enjoyed and heartily enjoyed.

ADDRESS BY CAPT. ANDERSON

He paid tribute to the magnificence of the work of the British Expeditionary Force as a whole, also to the spirit of organization and transport which had enabled the army to push steadily without a hitch, and take full advantage of the successes of the fighting men, and those who were done by the Canadian Forces.

Following on Capt. Anderson's address Lieut. J. Mackenzie expressed the thanks of the Veterans for the high quality of services, and also spoke on the formation of a branch of the G.W.V.A. in Strathmore.

Rev. Mr. Berry made an efficient chairman. The meeting concluded with the National Anthem, preceded by a vote of thanks to the artists who had contributed to the musical part of the programme, and Capt. Anderson.

Mr. J. E. Claxton has arrived here to take up a position as assistant agent at the C.P.R. Depot.

Bridge at Carseland

GOVERNMENT MAY BUILD THIS YEAR

For several years the farmers north and south of the Bow River in the vicinity of Carseland have been talking about a bridge across the river there, and there is no doubt that it would be a great convenience. The Provincial Government has now agreed to take some steps in the matter, as will be seen from the following statement received last week by Mr. C. F. Baker:

"Minister of Public Works
Edmonton, Alta., Feb. 18, 1919

C. F. Baker, Esq.,
Carseland, Alberta

Dear Sir:

I beg to acknowledge receipt of your letter of Feb. 13th, 1919, in reference to bridge across Bow River.

There is no doubt but that the Government will try and take some steps to build this bridge this year, but I would like to get the officers of the Royal Engineers together before we would make any definite announcement, as it would be necessary to get their approval of a location before we would start the work—Yours truly,

(Signed) A. MCLEAN"

Returned Soldiers Organise

ON THURSDAY LAST

of the returned soldiers in this district was held in the Red Cross Room, and the severity of the weather presented some difficulty in getting the men residing in the country from turning out, there was a representative attendance.

It was agreed to apply for a charter of incorporation of the Great War Veterans' Association of Canada, and a number of temporary appointments were made to carry on the organization until the charter was received.

The question of providing rooms came up, and a delegation was appointed to interview the Mayor and Town Council regarding the provision of a suitable room for the returning men and for clubrooms.

The question of holding a dance was taken up, and it was agreed unanimously to hold a dance on March 14.

Those present were: M. G. Knyvet, Geo. Auld, John Mackenzie, Sam Buckley, W. B. Morgan, H. White and J. Vank. The latter was elected chairman of the executive.

An executive committee was appointed to look after the organization of the branch.

A Note of Confidence

In these days of unrest, of speculation as to the future, of foreboding even as to what the future holds for Canada in the face of a period of economic depression, it is significant of all opening branches in France, Russia and the countries of South America. If existing capital was sufficient to enable the banks to "carry on" during the depression of the last year, a period of tremendous industrial activity, why do they now require more capital if trade is to be restricted? Does not their present policies of expansion indicate that, from all the sources of information available to command, the bank officials of the banks are rather convinced that a new and greater era of business development is opening for Canada? It would certainly be gratifying.

It is beyond all question that during the war, Canada increased her productive capacity enormously, in agriculture, in manufactures, and in commerce. She has undoubtedly gained valuable knowledge in the technique of production and vastly improved their methods. Even with a considerable falling off from the high point reached during the war, in the last year or two, their exports would still far exceed those of pre-war days.

As a result of the war, and the splendid part played in the grim struggle by the Dominion, Canada stands well in the eyes of the world, and is looked upon with confidence and respect by the eyes of the world. This country is "on the map," so to speak, as never before, and nations which had ignored Canada in the past are now beginning to take note of her.

It is notorious that capital is timid that financiers are fearful, that bankers and banking institutions are ultra-conservative, yet it is the chartered banks which have been the chief source of uncertainty have sounded a note of confidence and are taking the lead in a forward movement for the future. It is no surprising and unexpected development that such a quarter to cause amendment and lead one to search for the reason of it.

The attitude of the banks of Canada today is in sharp contrast to their attitude five or six years ago. Then they were enlarging the tallithes of credits, and in the summer and winter of 1913 put restrictions on all commercial borrowing. The loans boom in the West had collapsed, the great era of trade continued, may construction, and general building activity and large municipal undertakings was over; the banks were "carrying" many of the great industrial and commercial houses of Canada; the money markets of Great Britain were practically closed to further Canadian borrowings; New York financiers and financial journals were openly hinting at disaster ahead. In short, in our opinion, our export trade was not keeping pace with our increasing volume of imports. The banks slumped down on all schemes of further expansion.

The same can be said. Nevertheless, the Canadian banks stood the strain well, and were able not only to finance the business of the country and the requirements of the war, but also advanced huge credits of hundreds of millions of dollars to Britain. Much criticism of the banks is heard—no doubt partly justified—but it must be said to those who have proved a tonne of strength to Canada and the Empire throughout the war.

The war is all but over. The time

of reconstruction, readjustment, is upon us with all its possibilities of trade, of employment, and of general commercial activity. It is at this time that the chartered banks of Canada are arranging to increase their capital, increasing dividends, opening new branches throughout the country, and making significant of all opening branches in France, Russia and the countries of South America. If existing capital was sufficient to enable the banks to "carry on" during the depression of the last year, a period of tremendous industrial activity, why do they now require more capital if trade is to be restricted?

Does not their present policies of expansion indicate that, from all the sources of information available to command, the bank officials of the banks are rather convinced that a new and greater era of business development is opening for Canada? It would certainly be gratifying.

Fuel Oil in England

London.—Important discoveries of fuel oil have been made on the Duke of Devonshire's estate at Chesterfield, Derbyshire, where exploration has been carried on a large scale under official sanction. The supplies are described as vast. Experts are convinced that several other rich oil fields are in the country. An authority says there is more oil in the whole state of Pennsylvania than in the entire

United States.

New Germany Fears Fall of Government

London.—The possible fall of the German government is reported in these special despatches received from Berlin. The members of the government have arrived at Berlin to consult with the workmen's committee, a manifesto having been issued. All the correspondents report the situation is grave.

Berlin.—The government has issued a long manifesto from Weimar, denouncing the terrorist attempts to get rid of the national assembly. It proclaims faithfulness to the principles of democracy.

"Greater than the political danger is the economic distress," says the manifesto. "We cannot feed ourselves from our own supplies until the next harvest. The blockade is eating away the vitality of our people. Thousands perish daily from ill-nourishment."

The manifesto denounces strikes, saying: "Every strike brings us a step nearer to the abyss. Only work can save us."

"The strike protects the salvation of many industries and the establishments of industrial councils; representatives of all the workers and freely elected. It closes with a strong note, asserting the determination of the government to meet the relentless war of communism even at the cost of 'Whoever assails the life of the nation is our enemy.'

Indemnity Has Been Fixed.
Paris.—The peace conference commission on reparation has virtually completed its study of the indemnity which Germany must pay to the allied and associated powers and the amount in which it shall be paid. The study indicates that Germany is capable of paying rather than what the opposing powers lost in the war. Germany will have to make an immediate payment while the remainder will be scattered over a period of years, it is understood.

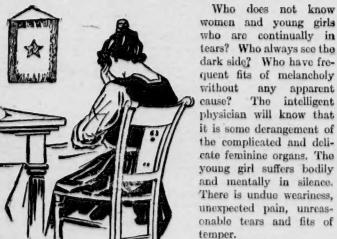

Allies Recruit the Republic.
Paris.—The peace conference commission on reparation has finally recognized the Ukrainian republic and agreed on Ukrainian participation in the peace negotiations as an entity, it was announced by the Ukrainian bureau here.

Control of Transport Held by Government

London.—Publication of the government's transport bill, which has been introduced in parliament, shows that it will give the minister of transport complete control over every form of transport.

The bill provides that complete management of the railways of the United Kingdom is to be conducted by the state for two years, partly to enable the government to make the tax rates pay dividends and partly to facilitate the movement of coal and mineral during the period of reconstruction of the ministry.

The Woman Who Suffers.

Prescription exerts a wonderful power over woman's delicate organs. It is an invigorating tonic and is prescribed for the peculiar weaknesses, infirmities and physical degradations of woman.

Curious sayings go along frequently through their patient's for biliousness, nervousness, dyspepsia, liver or kidney troubles, while the real sickness lies in the organs distinctly feminine, and no help can come till they are made perfectly strong by the use of Dr. Pierce's Favorite Prescription, in tablet or liquid form.

Doctor Pierce's Favorite

Trotto, Ord.—Dr. Pierce's medicine has been a wonderful help to me. I recommend it in hope that others may be benefited by its use. When I was 18, I was always delicate. My mother thought she could never raise me. As a child I had a very bad cold, and I suffered 4 times until agony. My mother started giving me "Favorite Prescription," and is finally cured me of all my trouble. After I married I used to take it every day. This medicine did wonders for me, now I am much better and I can highly recommend it to weak women or those raising a family."—Mrs. A. W. Webb, 118 Tecumseh St.

Huns Must Leave China

Paris.—The German armistice delegates at Spa have proposed to the Chinese government that Germany be expelled from China, which country expelled two shiploads of Germans and sent them to Australia in January and is preparing to send them to the coast of Korea and see the way in the same state that no armament is held, he said. "We expect that just as we do the millennium, but until that time comes when that little problem of the German navy is settled, we will not be settled, but has been tested, no country can deal with problems affecting itself without due regard to its strategic position."

The speaker said ninety per cent. of Ireland's trade was with England.

London.—Reuter's learns that four ships have been chartered for the voyage from China to Europe for the repatriation of all Germans in China, excepting a few military men.

The first ship sails early in March. Two thousand five hundred Germans, including 1,200 women and children, are involved.

Crude in South Russia

Hostages Shot Down With Machine Guns by Bolshevik Sailors

London.—Reuter's correspondent in South Russia, who travelled to the Caucasian coast aboard the veteran cruiser Gravir, which fired more than 1,000 rounds of 120 mm. naval shells, telegraphed from Ekaterinodar, that the Bolsheviks have taken as hostages a hundred notables, including Generals Raskov and Radko, together with several ladies. The hostages were drawn in motor boats to a spot where they were placed against the cliff and shot down with machine guns by Bolshevik sailors. Those who still showed signs of life were hacked to death with sabres and cutlasses.

Mission Fail in Poland

Warsaw.—Negotiations at Lemberg between the Poles and the Germans and the Poles and Ukrainians have been broken off, it being found impossible to get the Poles and Ukrainians to agree on a line of demarcation between their forces. Hostilities are about to be resumed, it is reported.

Irish Republic Not Practical

Ninety Per Cent of Trade Is With England

Chicago.—"Ireland would always prefer independence to Great Britain rule, but if independence is to be gained, it should be preferable to independence," Sir Horace Plunkett, who was chairman of the Irish convention said before the Irish Fellowship club, "We want to see the end of the war and see the way in the same state that no armament is held," he said. "We expect that just as we do the millennium, but until that time comes when that little problem of the German navy is settled, we will not be settled, but has been tested, no country can deal with problems affecting itself without due regard to its strategic position."

The speaker said ninety per cent. of Ireland's trade was with England.

Wedding in Westminster Abbey

Public Greatly Interested in Social Event

London.—Maries Patricia of Connaught, and Commander Alexander R. M. Ramsay, R.N., were married at Westminster Abbey, February 27th. No other social event since the beginning of the war has caused so much public interest. Connaught assembled early along the route over which the princess drove with her father, the Duke of Connaught, from St. James' Palace to Westminster Abbey.

The ceremony was performed by the Archibishop of Canterbury, assisted by other noted ecclesiastics in the presence of King George and Queen

HON. MRS. M. H. M. RAMSAY
(Princess Patricia)

Mary, and a great assembly of the members of the royal family, distinguished officials of the British and foreign governments, and friends and visitors from abroad.

In the fashionable audience in the great nave of the abbey seats were found a number of the many friends of the bride, including the plain people, and also representatives of charitable organizations in which she was interested.

The bride entered the abbey by the west door. Her gown was of white brocade panne over silver lace, the outer gown being caught up "lith flowers" knot. She carried a bouquet presented by "Princess Pat," Connaught's daughter, and tied with the regal colors.

The procession was led by a singing "Praise, My Soul, the King of Heaven." The gentlewoman ushered the bride into the abbey. Then came Lady Jean Ramsay, with Princess Ingrid of Sweden, Lady Ira Ramsay with Mary Cambridge, Princess Madeleine with Princess Mary, and Princess Elizabeth Cambridge with Lady Victoria Cambridge.

The bride was given away by her father. During the service the choir sang the 67th Psalm, the hymn "O Perfect Love," and the anthem, "Who Is Like unto Thee, O Lord?"

Trotto, Ord.—Dr. Pierce's medicine has been a wonderful help to me. I was always delicate. My mother thought she could never raise me. As a child I had a very bad cold, and I suffered 4 times until agony. My mother started giving me "Favorite Prescription," and is finally cured me of all my trouble. After I married I used to take it every day. This medicine did wonders for me, now I am much better and I can highly recommend it to weak women or those raising a family."—Mrs. A. W. Webb, 118 Tecumseh St.

Drastic Terms Imposed

Germany's Use of Airplanes Is Greatly Limited

Paris.—Marshal Foch presented the council of the great powers his conditions to be incorporated into the peace treaty. These will be considered with the naval terms already submitted to the council.

The military terms provided for twenty divisions of the army, each including fifteen divisions of infantry and five of cavalry. Severe restrictions are placed on the manufacture of all classes of war material, and the military and commercial use of the airplane is limited to the minimum.

Beyond Marshal Foch's presentation there were no discussions.

Revolt in Barceona

Growing More Grave and More Troops Are Wanted

Madrid.—The situation in Barceona has grown worse and the authorities there have requested the Madrid government to send forces of men to try to maintain order. It is reported that a revolutionary league has been formed in Barceona with the purpose of cutting the water mains and electric cables. Wednesday night troops patrolled the city, which was in complete darkness.

Huns Have Reign of Terror

Beren.—The situation in Germany is described as most critical. The general strikes are continuing more and more, especially in central Germany, where disorder is increasing. The traffic has practically stopped. Telegraph and telephone services is reported from various centers.

Fears are felt by the authorities that a reign of terror is about to begin in Erzur, Gera, Halle, and Berlin. It is reported also that Bolshevik danger is growing in eastern Siberia.

Australia Postpones Congress

New York.—The annual press congress, which was to have opened on November 11 in Sydney, Australia, has been postponed indefinitely, according to a cablegram from W. A. Howitt, president of New South Wales newspapermen.

The meeting of the congress, of which Dr. Walter Williams, dean of the School of Journalism of the University of Southern California, is president, was to have been in the course of a celebration of the termination of the war. No explanation of the postponement was given in the cablegram.

New Government in Uruguay

Montevideo.—With the inauguration of Dr. Baltasar Brum as president, Uruguay begins a commission of government for the republic, the commission being formed of the president-elect, elected by the votes of the people, and nine commissioners appointed by the two houses of congress.

In addition, the president will have the usual cabinet of nine members, of whom he will name three and the commission six.

"All clothes and other necessities can be easily secured through permission of the government by cards and at fixed prices."

Proof that Some Women do Avoid Operations

Mrs. E. Dorian, of Ogdensburg, Wis., says:

"I suffered from female troubles which caused piercing pains like a knife through my back and side. I finally lost all my strength and became very weak, but I would not listen to it. I thought of what I had read about Lydia E. Pinkham's Vegetable Compound and tried it. The first bottle I took I had six solid hours of sleep. All women who have female trouble of any kind should try Lydia E. Pinkham's Vegetable Compound."

How Mrs. Boyd Avoided an Operation

Canton, Ohio.—"I suffered from a female trouble which caused me pain in my lower abdomen. I would have to go through an operation before I could get well again."

"My mother, who had been helped by Lydia E. Pinkham's Vegetable Compound, advised me to try it before I suffered again. I took one tablet a day and soon my trouble was gone. I can't work with an operation, so I am glad I avoided it. I advise any woman who is afflicted with female trouble to take Lydia E. Pinkham's Vegetable Compound. It is a trial and it will do as much good for them as for me."—Mrs. MARY BOYD, 3424 4th St., M. E. Cancer.

All Classes Must Take Responsibility

France Will Win Point

Pars.—The council of the

great powers, the Havas agency states, has decided that

the question must be

settled between France and

Spain, the two nations most in-

terested. It is proposed that

the international status be abol-

ished and replaced by a new

regime in which there shall be

provision for adequate protec-

tion of the French interests.

Great Britain, the agency says,

has also given her full sup-

port to the plan, and she feels that the favorable attitude of the com-

mittee makes it certain that France

will win her point.

"The next three weeks may deter-

mine whether our country, after

engaging successfully from the

war, can hold its own in the

economic struggle whose conse-

quences may be almost as dan-

gerous as defeat by Germany.

It is essential that all classes

understand the situation, and without

class prejudice or bias, recognize

the responsibility, which they can-

not escape."

"For four years the industrial life

of the country has been conducted on

borrowed capital, which has created

an atmosphere of social and eco-

nomic strife. You will have to do

what the nation does—go to work

and build up your losses as soon as

possible."

Regarding the railway situation,

Mr. Thomas says that these courses

are open—the soldiers who have less pay, the public must pay more,

or the state must subsidize the con-

cern. The real difficulty of the moment

was to have a permanent stand-

ard and to have a variable stand-

ard—a costly error of

absurdity of cost.

A fatal mistake would be

made by either side assuming that because the consequences are so ter-

rible, the other side would give way."

London.—Addressing a mass meeting at Wallord, Rt. Hon. James Hartog Thomas, labor member of parliament for Derby, and general secretary of the National Union of Railways, said:

"The next three weeks may determine whether our country, after engaging successfully from the war, can hold its own in the economic struggle whose consequences may be almost as dangerous as defeat by Germany. It is essential that all classes understand the situation, and without class prejudice or bias, recognize the responsibility, which they can-not escape."

"For four years the industrial life of the country has been conducted on borrowed capital, which has created an atmosphere of social and economic strife. You will have to do what the nation does—go to work and build up your losses as soon as possible."

Regarding the railway situation,

Mr. Thomas says that these courses

are open—the soldiers who have less

pay, the public must pay more,

or the state must subsidize the con-

cern. The real difficulty of the moment

was to have a permanent stand-

ard and to have a variable stand-

ard—a costly error of

absurdity of cost.

A fatal mistake would be

made by either side assuming that because the consequences are so ter-

rible, the other side would give way."

Japanese Losses in Amur

Vladivostok.—In an engagement

between Japanese and Bolshevik forces, the Japanese lost two officers and

eighteen men killed and twenty

wounded. The Bolshevik force was

estimated to number 3,000.

Famine and Disease Spreading in Russia

Washington.—Additional light on the situation in the portions of Russia under Bolshevik control is given by a summary of reports secured recently from a number of refugees who passed through Helsinki on their way to Stockholm or to Moscow.

The food supply is extremely poor by the state department because of the various conflicting accounts of conditions which have been received.

The party at Helsinki," said the statement, "was composed of French, British, Belgian and Italian citizens, most of them Red Cross workers. The papers all agree as to the terrible condition of the food and the scarcity of food. Dog meat is quoted at four roubles (a pound) a pound, horse meat at fifteen roubles a pound, pork at 60 roubles and lamb at 100 roubles. The country is practically stripped of all manufactured articles, especially wear-

ing apparel, and all grain and supplies required by the Soviet government from peasants, who receive nothing in return."

"Lyphus is reported to be spreading rapidly in the lower part of the country, especially in the northern provinces, and is causing many deaths. Children are dying of starvation, and the mortality rate is high. The food situation in Russia is very bad and food is distributed in three categories, a full portion of those doing housework, a half portion to employees of the government and private houses and an one-fourth portion to people not engaged in any occupation. The portions depend upon the number of children in the family, generally being one pound of bread daily.

"Soldiers get an army portion of two pounds of bread, half a pound of meat daily and an additional allowance of two and one-half pounds of sugar, meal, flour, oil and one-half pounds of fats.
